## APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second.

Actual construction work shall begin on or before June 24, 1921.

Proof of commencement of work shall be filed before July 24, 1921.

Work must be prosecuted with reasonable diligence and be completed on or before June 24, 1924.

Proof of completion of work shall be filed before July 24, 1924.

Application of water to beneficial use shall be made on or before June 24, 1926.

Proof of the application of water to beneficial use must be filed with State Engineer on or before July 24, 1926.

AUG 22 1921

WITNESS MY HAND AND SEAL this 24th day

Feb. 3, 1921

of May, 1921

Cancelled Mar 2, 1932 because of failure of applicant to comply with provisions of permit.

State Engineer.

State Engineer.

Compared - 22-3-22

This permit is issued subject to all prior rights on the source. The full statutory allowance of 2.0 c.f.s. of water is allowed for the 200 acres proposed to be irrigated, notwithstanding the fact that some of the land may receive water from the Walker River. It is understood, however, that any land which may hold a water right from the Walker River can hold no water right under this permit, and it is further understood that the cultural map to accompany proof of beneficial use when due, shall show the location of the land irrigated under this permit separate from the land irrigated from any other source. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that the applicant agrees to the terms herein contained.
